Married

## Work Experience

### Lead Consultant- IT

#### ITC Infotech

- Involved in design , development and testing of Web Applications and Web Services using ASP.NET Core MVC, ASP.NET MVC ,Microsoft Azure, ASP.NET Web API, SQL Server, SSIS ,C# and .NET framework
- Involved in the requirement analysis, HLD and LLD Document preparation, coding and code Review.
- Prepared Unit Test Cases using MS-Test and MOQ framework.
- Worked in Banking Domain - Client iPSL (Cheque Clearing Company in UK) with experience in working in Client Location Northampton, UK.
- Led team of developers across a variety of projects including collaborating with the team towards timely delivery of goals.

#### Projects Handled

- Talent Management System** : Talent Management system facilitates the management of employee profiles and employee skills in the company. The application provides the ability for the employees to update their competencies in the system and submit for approval. The managers can then approve/reject the competencies of their reportees. Once the competencies are approved, they are available to be searched by the resource managers while looking for resources to be assigned in a new project.
- Timesheet on Mobile Application** It is in-house project to provide employees of the organization a mobile based app for submitting their respective weekly timesheet. Employees can download from PlayStore or Intunes portal for their respective devices and can login by using their company id. Once successfully authenticated with ITC network, user can view or create/update and approve/reject timesheets.
- Agency Portal** : Agency Portal is part of the large program which is the implementation of the Future Clearing Model of the major banks in UK. The Future Clearing Model involves exchange of the cheque images and data instead of the physical cheques. This will significantly reduce the cheque clearing process from the current six-day cycle to two days.  
Agency Portal application will allow agency banks to make pay decisions without the physical paper items.

2014 -  
Present

### Senior Associate

#### Synechron Technologies Ltd

- Involved in design , development and testing of Web Forms and Web Services using ASP.NET Web Forms, SQL Server, C# and .NET Framework.
